**Course Aims**

This course aims to provide you with state of the art analysis and business research skills and projects and operations management with options to develop your expertise in Finance or Marketing. The awareness of business and the knowledge base developed in this course will equip you for a broad range of careers in the world of business. You will develop your learning through collaboration with students and tutors in order to progress from a guided to an autonomous and independent learner who is capable of working with complex and unstructured problems in a variety of business administration contexts. Our emphasis is on practical application of theoretical knowledge to develop your ability to function in complex, multi-cultural and multi-professional global environments and in doing so be able to be analytical, as well as creative and to develop critical thinking skills that are expected of students in higher education. This programme supports entry and progression in management careers in industry, commerce or the public sector and provides access to masters and professional courses in specific areas such as Finance, HRM and marketing.

<b>Course Learning Outcomes</b>	Upon successful completion of your course you should meet the appropriate learning outcomes for your award shown in the table below
