-------------------------	-----

<b>Course Aims</b>	<p>This course will further develop the knowledge and skills acquired during your undergraduate studies by enhancing your ability to understand the accounting and finance systems within a business and management context. Along with the cognitive knowledge of accounting and finance required to comprehend the operations and analyse the performance of businesses, you will also further develop the necessary quantitative, research, and presentation skills required for a successful career. Besides focusing on specific areas of accounting and finance, this course offers you a contextual understanding of the environment in which businesses operate and the place of accounting and finance within a business.</p>
--------------------	--

Upon successful completion of your course you should meet the appropriate learning outcomes for your award shown in the table below

<b>Outcome</b>	<b>Award</b>
1 Critically assess how organisations set and meet their long term goals and objectives through the deployment, utilisation and integration of resources and to appreciate the challenges faced by management in achieving them.	MSc, PG Diploma
2 Demonstrate a clear development of the cognitive knowledge and skills required in a range of areas in accounting and finance in order to evaluate the financial performance and financial position of an organisation and the effectiveness of its management decision-making processes.
